

## NEW ALD FILE FORMAT SPECIFICATIONS

*As of September 15, 2020*

“In scope” Depository Institutions (DIs), as defined in the [November 28, 2017 communication](#), that pledge loans as collateral for Federal Reserve or Treasury program purposes will be required to submit periodic reports with the [new loan fields](#) for each pledged loan. All “in scope” institutions are required to submit these reports, for the identified loan categories, in a format that can be read for Automated Loan Deposit (ALD), the Federal Reserve's process for recording loan pledges at the individual loan detail level in its Collateral Management System (CMS).<sup>1</sup> This document sets out the Federal Reserve’s file specifications for “in scope” institutions’ collateral reports in a plain text file of vertical pipe separated fields.<sup>2</sup> The identified fields below correspond to the new loan field definitions and are provided to instruct “in scope” institutions when creating submission reports. All institutions are reminded that these requirements pertain only to the new pledge loan reports that “in scope” institutions must submit beginning in 2019. The current pledge loan reports for valuation purposes remain unchanged, which can be found [here](#). If any “in scope” institutions have questions while creating the new loan files, they can submit questions [here](#).

### General Reporting Requirements

- On a periodic basis (at least monthly), “in scope” DIs will send a plain text file of vertical pipe (|) separated fields containing the required loan fields on loans pledged as collateral.
- “In scope” institutions are reminded that beginning in 2019 they must submit both the current ALD report for valuation purposes, as well as the new ALD collateral report with the additional loan fields. This is expected to last for approximately 18 months.
- Each file should only contain data for one ABA number and asset type. A DI is allowed to submit multiple files for the same asset type and pledgee account code.
- Each file must contain a unique loan identifier that will be maintained and matched in future file submissions; each new file will replace the previous file with the same loan identifier<sup>3</sup>.
- Files should only contain loans that meet all applicable eligibility requirements for the pledge program.
- Depository institutions should encrypt files in transit (using an approved secure transmission method) before sending Collateral Schedules electronically.
- Each file:
  - Must provide updated loan fields for loans currently pledged (revaluations)
  - Must exclude loans that a DI no longer wishes to pledge (withdrawals)
  - May contain new loan deposits (loans that were not included on the prior report).

### Record Types and Requirements

- Each file should include only one Header Record (the first record in the file) and only one Trailer Record (the last record in the file).
- In the format fields for the header and trailer record as well as the loan detail record: when a numerical value is required it is represented by a 9 and when alphabetic characters are required they are represented by an X. The numbers in parenthesis identify the maximum number of characters in each loan field.
- When coding fields the following rules should be applied:
  - Decimal points and negative signs in numeric fields should be explicit.
  - Leading zeros in numeric fields should be suppressed.

---

<sup>1</sup> Credit card pledges are to be reported based on credit score “pools”, with each “pool” having a set credit score threshold. Separate submissions of Prime and Subprime credit cards are no longer required for in-scope institutions; since credit card reporting is now “pool”-based, only one submission covering all credit cards is needed. However, the format in which an in-scope institution will be required to deliver the new loan fields will be at the discretion of each Federal Reserve Bank.

<sup>2</sup> Out of Scope DIs are not required to create new pledged loan reports unless they opt to be an “in scope” institution. Please refer to the [Automated Loan Deposit Overview](#) page on the Discount Window & Payment System Risk website for more information

<sup>3</sup> Loan Identifiers are created by local Federal Reserve Banks for internal purposes. If you have questions, please contact your local [Federal Reserve Bank](#).

- All dates should be in CCYYMMDD format.
- All times should be in HHMMSS format.
- The Asset Code in the header record is used to determine the specific detail record format, as defined below:

<b>Header Record</b>		
<b>Field #</b>	<b>Field Name</b>	<b>Format</b>
1	Record Code (Value 0)	9(1)

### Glossary of Terms

Field Name – Header Record	Definition	Comment
<b>ABA Number</b>	Nine-digit ABA number for the pledging institution.	
<b>Loan Identifier</b>	Unique loan identifier number of the loan file to be pledged and to be shown on the Statement of Collateral Holdings.	The Loan Identifier must remain the same month to month, as each new file will replace the previous file with the same loan identifier.
<b>Holding ABA Number</b>	Nine-digit ABA number for the custodian.	
<b>Account Code</b>	<p>This is the specific account code to which pledged collateral is deposited. Please enter U102, T108, T208 or V*** (a ""V"" account will have a unique set of digits specific to a government agency).</p> <p>U102 is for Federal Reserve Discount Window, T108 is for Treasury Tax and Loan - Special Direct Investment, T208 is for Treasury Tax and Loan - Term Investment Option and the V*** account is for the 31 CFR 202 program.</p>	
<b>Asset Code</b>	<p>This is the unique code representing the pledged loan type. Please enter the following code based on the corresponding loan type:</p> <p>550: Bank Loans to State/Local            705: Agricultural Loans            710: Commercial and Industrial Loans            720: US Agency Guaranteed Loans            725: Non-Guaranteed Portion of US Agency Guaranteed Loans            740: Unsecured Consumer Loans            741: Secured Consumer Loans            743: Consumer Leases            744: Student Loans            750: 1-4 Family Mortgages (1st Lien)            760: 1-4 Family Mortgages (Home Equity, 2nd Lien)            780: Commercial Real Estate Loans            790: Construction Loans            791: Raw Land Loans            842: Credit Cards</p>	
<b>Principal Balance As-Of Date</b>	The date as of which the outstanding principal balances and all other accompanying loan data are reported.	

Field Name – Header Record	Definition	Comment
<b>Processing Date</b>	The date when the collateral schedule was generated.	
<b>Processing Time</b>	This is the time when the collateral schedule was generated. Enter time using a 24-hour format.	

Field Name – Loan Detail Record	Definition	Comment
<b>Obligation Number</b>	The unique identifier of the reported pledged loan.	
<b>Credit Score Segment</b>	<p>Pledged credit cards are to be reported at the pool level. Report the following segment based on the most recently determined commercially available credit score ranging from 300 to 850 for the primary borrower :</p> <p>&gt;760 660-760 620-659 &lt;620</p> <p>For the definition of a commercially available credit bureau score, see the general instructions to the CCAR exercise. If a commercially available credit score ranging from 300 to 850 is not available, translate an internal credit score into an equivalent commercially available credit score ranging from 300 to 850.</p>	<p>The unique identifier of the reported credit card pool:</p> <p>1 = (&gt;760) 2 = (660-760) 3 = (620-659) 4 = (&lt;620)</p> <p>Do not report a pool if it does not contain any pledged credit cards.</p>
<b>Obligor Number</b>	<p>The unique identifier of the obligor/borrower for the reported pledged loan.</p> <p>If an obligor number is not available, report the obligation number.</p>	
<b>Obligor Name</b>	The name of the obligor/borrower for the reported pledged loan.	
<b>Obligor City</b>	Report the city. For consumer loans, use the primary mailing address of the obligor as the source. For commercial loans, use the primary/principal place of business as the source.	Required for U.S. borrowers only.
<b>Obligor State</b>	Report the two-letter state abbreviation. For consumer loans, use the primary mailing address of the obligor as the source. For commercial loans, use the primary/principal place of business as the source.	Required for U.S. borrowers only.

Field Name – Loan Detail Record	Definition	Comment
<b>Obligor Country</b>	Report the two-letter ISO country code. For consumer loans, use the citizenship of the obligor as the source. For commercial loans, use the primary/principal place of business as the source.	Leave blank for U.S. borrowers.
<b>Master Note Reference Number</b>	A master note is defined as a lending facility in which a borrower has the ability to make one or multiple draws (the cumulative amount of which cannot exceed the master note amount) whereby each draw becomes a separate loan. For loans/draws that are part of a master note relationship and are governed by a master note and/or credit agreement, report the dollar amount that the obligor is legally allowed to borrow of the master note itself at loan origination. Not applicable if the reported loan is not part of a master note relationship.	If the reported loan is not part of a master note relationship, leave blank.
<b>Master Note Original Balance/Commitment</b>	A master note is defined as a lending facility in which a borrower has the ability to make one or multiple draws (the cumulative amount of which cannot exceed the master note amount) whereby each draw becomes a separate loan. For loans/draws that are part of a master note relationship and are governed by a master note and/or credit agreement, report the dollar amount that the obligor is legally allowed to borrow of the master note itself at loan origination. Not applicable if the reported loan is not part of a master note relationship.	If the reported loan is not part of a master note relationship, leave blank.
<b>Master Note Current Commitment Amount</b>	A master note is defined as a lending facility in which a borrower has the ability to make one or multiple draws (the cumulative amount of which cannot exceed the master note amount) whereby each draw becomes a separate loan. For loans/draws that are part of a master note relationship and are governed by a master note and/or credit agreement, report the dollar amount that the obligor is legally allowed to borrow of the master note itself at the pledge submission date. Not applicable if the reported loan is not part of a master note relationship.	If the reported loan is not part of a master note relationship, leave blank.
<b>Master Note Maturity Date</b>	For loans/draws that are part of a master note relationship and are governed by a master note and/or credit agreement, report the maturity date of the master note itself.	For demand loans, enter "99990101" or "99991231"

Field Name – Loan Detail Record	Definition	Comment
	<p>The maturity date is the last date upon which the balance (principal and interest) must be repaid, inclusive of extension options that are solely at the borrower’s discretion and according to the most recent terms of the credit agreement. If extension options are conditional on certain terms being met, such extensions should be considered to be at the sole discretion of the borrower only when such conditions are in compliance with the credit agreement.</p>	<p>If the reported loan is not part of a master note relationship, leave blank.</p>
<b>Interest Frequency</b>	<p>Report the frequency with which interest payments are due on the reported loan:  Monthly  Quarterly  Semi-annually  Annually  Payable at maturity  None  If the interest frequency changes over the life of the loan, report the frequency in effect as of the pledge submission date. If a loan has an interest frequency that is not listed above, leave the loan field blank.</p>	<p>M = Monthly  Q = Quarterly  S = Semi-annually  A = Annually  P = Payable at maturity  N = None</p>
<b>Principal Payment Frequency</b>	<p>Report the frequency with which principal payments are due on the reported loan:  Monthly  Quarterly  Semi-annually  Annually  Payable at maturity  None  If the principal frequency changes over the life of the loan, report the frequency in effect as of the pledge submission date. If a loan has an principal frequency that is not listed above, leave the loan field blank.</p>	<p>M = Monthly  Q = Quarterly  S = Semi-annually  A = Annually  P = Payable at maturity  N = None</p>
<b>Interest Next Due Date</b>	<p>Report the date that the next scheduled interest payment is due. Not applicable if no interest is due.</p>	<p>Leave blank if no interest is due on the loan.</p>
<b>Interest Paid Through Date</b>	<p>Report the date through which interest payments have been paid. Not applicable if no interest is due. For new loans where</p>	<p>Leave blank if no interest is due on the loan.</p>

Field Name – Loan Detail Record	Definition	Comment
	an interest payment has not yet been paid, leave the loan field blank.	
<b>Principal Next Due Date</b>	Report the date that the next scheduled principal payment is due. Not applicable if no principal is due.	Leave blank if no principal is due on the loan.
<b>Principal Paid Through Date</b>	Report the date through which principal payments have been paid. Not applicable if no principal is due. For new loans where a principal payment has not yet been paid, leave the loan field blank.	Leave blank if no principal is due on the loan.
<b>Balance: C&amp;I; Ag Loans; Gov't Non-Guaranteed Loans; Gov't Guaranteed Loans; CRE; Raw Land; Construction Loans; Resi Mtges; Consumer Secured; Consumer Unsecured; Consumer Leases; Student Loans</b>	Principal (or face) amount of loan outstanding on the pledge submission date. For a line of credit, it represents the amount drawn down on the pledge submission date.	For Gov't Guaranteed Loans, the balance should only represent the guaranteed portion of the loan.
<b>Balance: Credit Cards</b>	Balance receivable in the pool on the pledge submission date. The reported balance should account for finance charges.	
<b>Interest Rate</b>	The annualized interest rate (aka coupon rate or APR) on the Principal Balance As-Of Date. (This is the rate supporting the next coupon payment after the Principal Balance As-Of Date.)	Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).
<b>Maturity Date</b>	The maturity date is the last date upon which the balance (principal and interest) must be repaid, inclusive of extension options that are solely at the borrower's discretion and according to the most recent terms of the credit agreement. If extension options are conditional on certain terms being met, such extensions should be considered to be at the sole discretion of the borrower only when such conditions are in compliance with the credit agreement. Not applicable for demand loans.	For demand loan, enter "99990101" or "99991231". A loan is consider a demand loan if the lender has the unconditional option to accelerate the loan and require repayment upon making proper advance notice. (i.e. A requirement for the lender to provide the borrower with advance notice that repayment is due is not considered to be a condition.)
<b>FX/FL Flag</b>	Indicate the type (fixed or floating) of the current interest rate on the pledge submission date. The current interest rate is the	FX = Fixed FL = Floating

Field Name – Loan Detail Record	Definition	Comment
	<p>one underlying the next interest payment after the Principal Balance As-Of Date.</p> <p>An interest rate is fixed if it is specified without reference to any market index. An interest rate is floating if it is specified as a spread to a market index.</p> <p>In a fixed-to-floating structure (commonly known as a hybrid ARM), the current interest rate is fixed when the Principal Balance As-Of Date precedes the Initial Reset Date, and floating when the Principal Balance As-Of Date is on or after the Initial Reset Date.</p>	
<b>DI Internal Risk Rating</b>	Latest risk rating grade from the reporting entity’s internal risk rating system.	
<b>Origination Date: C&amp;I; Ag Loans, Gov’t Non-Guaranteed Loans; CRE; Raw Land: Construction Loans; Resi Mtges; Consumer Secured; Consumer Unsecured; Student Loans</b>	<p>The date the commitment to lend becomes a legally binding commitment. If there has been a major modification to the loan such that the obligor executes a new or amended and restated credit agreement, use the revised contractual date of the credit agreement as the origination date. If the loan has been renewed per the terms of the original loan agreement or re-priced, report the date on which the most recent renewal notification became effective, and update other impacted loan fields (such as Original Balance/Commitment).</p> <p>The origination date should be before or equal to the pledge submission date.</p>	
<b>Origination Date: Consumer Leases</b>	<p>The date the commitment to lend becomes a legally binding commitment. If there has been a major modification to the lease such that the obligor executes a new or amended and restated credit agreement, use the revised contractual date of the credit agreement as the origination date. If the lease has been renewed per the terms of the original lease agreement or re-priced, report the date on which the most recent renewal notification became effective, and update other impacted loan fields (such as Original Balance/Commitment).</p> <p>The origination date should be before or equal to the pledge submission date.</p>	
<b>Original Balance/Commitment:</b>	Report the total amount financed at lease origination.	

Field Name – Loan Detail Record	Definition	Comment
<b>Consumer Leases</b>		
<b>Original Balance/Commitment: Ag Loans; Gov't Non-Guaranteed Loans; Gov't Guaranteed Loans; CRE; Raw Land; Construction Loans; Resi Mtges; Consumer Secured; Consumer Unsecured; Student Loans</b>	<p>For a term loan, the dollar amount borrowed at loan origination;  For a line of credit, the total dollar amount the obligor is legally allowed to borrow at loan origination.</p> <p>If there has been a major modification to the loan such that the obligor executes a new or amended and restated credit agreement, report the amount borrowed at the time the loan is modified. If the loan has been renewed per the terms of the original loan agreement or re-priced, report the amount borrowed at the time of the most recent renewal notification.</p>	
<b>Original Balance/Commitment: C&amp;I</b>	<p>For a term loan, the dollar amount borrowed at loan origination;  For a line of credit, the total dollar amount the obligor is legally allowed to borrow at loan origination.</p> <p>For a lease, the dollar amount borrowed at lease origination inclusive of residual value of the collateral.</p> <p>If there has been a major modification to the loan such that the obligor executes a new or amended and restated credit agreement, report the amount borrowed at the time the loan is modified. If the loan has been renewed per the terms of the original loan agreement or re-priced, report the amount borrowed at the time of the most recent renewal notification.</p>	
<b>Current Commitment</b>	Report the total dollar amount the obligor is legally allowed to borrow on the pledge submission date.	
<b>Amortization Start Date: C&amp;I; Ag Loans; Gov't Non-Guaranteed Loans; Gov't Guaranteed Loans; CRE; Construction Loans; Resi Mtges</b>	<p>The date of the first required principal payment after origination.</p> <p>For a loan with optional amortization payments, report the date of the first required amortization payment.</p> <p>For a "bullet" loan, this would be the Maturity Date.</p>	
<b>Amortization Start Date: Student Loans</b>	The date of the first required principal payment at origination. If there is a deferral, report the updated first required principal payment date.	

Field Name – Loan Detail Record	Definition	Comment
<b>Amortization End Date</b>	The date of the last principal payment according to the amortization schedule. For a loan with a "balloon" payment, it would be a hypothetical future date -- beyond the Maturity Date -- when the hypothetical amortization would end. For all other types of loans, this would be the Maturity Date.	
<b>Interest Rate Index: C&amp;I; Ag Loans, Gov't Non-Guaranteed Loans; CRE; Raw Land; Construction Loans; Consumer Secured; Consumer Unsecured; Consumer Leases; Student Loans</b>	For a floating rate loan or a varying rate type loan that is currently in a floating rate period, report the index underlying the current interest rate calculation. If obligor has an option amongst different indices, select the index currently in use. Allowable responses are: LIBOR Treasury PRIME U.S. LIBOR replacement benchmark (e.g.: SOFR) Other Not applicable if fixed interest rate loan either permanently or in the current period.	01 = LIBOR 02 = Treasury 03 = PRIME 04 = U.S. LIBOR replacement benchmark (e.g.: SOFR) OT = Other  Leave blank if interest rate is fixed.
<b>Interest Rate Index: Resi Mtges</b>	For floating rate loans or fixed-to-floating rate loans (commonly known as a hybrid ARM), report the index underlying the floating interest rate calculation. If obligor has an option amongst different indices, select the index currently in use. Allowable responses are: LIBOR Treasury PRIME U.S. LIBOR replacement benchmark (e.g.: SOFR) Other Not applicable if interest rate is fixed for the life time of the loan.	01 = LIBOR 02 = Treasury 03 = PRIME 04 = U.S. LIBOR replacement benchmark (e.g.: SOFR) OT = Other  Leave blank if interest rate is fixed for the life time of the loan.
<b>Interest Rate Spread: C&amp;I; Ag Loans, Gov't Non-Guaranteed Loans; CRE; Raw Land; Construction</b>	For a floating rate loan, report the spread over the index rate. If the loan includes multiple draws with different spreads, provide the spread that approximates the overall spread on the loan.	Leave blank if interest rate is fixed. Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).

Field Name – Loan Detail Record	Definition	Comment
<b>Loans; Consumer Secured; Consumer Unsecured; Consumer Leases; Student Loans</b>	Not applicable if fixed interest rate loan either permanently or in the current period.	
<b>Interest Rate Spread: Resi Mtges</b>	For floating rate loans or fixed-to-floating rate loans (commonly known as a hybrid ARM), report the spread over the index rate. If the loan includes multiple draws with different spreads, provide the spread that approximates the overall spread on the loan. Not applicable if the interest rate is fixed for the life time of the loan.	Leave blank if interest rate is fixed for the life time of the loan. Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).
<b>Interest Rate Cap: C&amp;I; Ag Loans, Gov't Non-Guaranteed Loans; CRE; Raw Land; Construction Loans; Consumer Secured; Consumer Unsecured; Consumer Leases; Student Loans</b>	Report the lifetime rate ceiling (or "cap") if one is contained in the credit agreement. The reported ceiling should reflect the full interest rate (index rate + spread), even if the actual cap only applies to one component. Not applicable if fixed interest rate either permanently or in the current period.	Leave blank if interest rate is fixed. Use -99 if interest rate is floating and there is no cap . Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).
<b>Interest Rate Cap: Resi Mtges</b>	Report the lifetime rate ceiling (or "cap") if one is contained in the credit agreement. The reported ceiling should reflect the full interest rate (index rate + spread), even if the actual cap only applies to one component. Applies to loans that float for the life of the loan or fixed-to-floating rate loans (commonly known as hybrid ARMs). Not applicable if the interest rate is fixed for the life time of the loan.	Leave blank if interest rate is fixed for the life time of the loan. Use -99 if interest rate is floating at any time during the life of the loan and there is no cap . Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).
<b>Interest Rate Floor: C&amp;I; Ag Loans, Gov't Non-Guaranteed Loans; CRE; Raw Land; Construction Loans; Consumer Secured; Consumer Unsecured; Consumer Leases; Student Loans</b>	Report the lifetime rate floor if one is contained in the credit agreement. The reported floor should reflect the full interest rate (index rate + spread), even if the actual floor only applies to one component. Not applicable if fixed interest rate either permanently or in the current period.	Leave blank if interest rate is fixed. Use -99 if interest rate is floating and there is no floor. Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).
<b>Interest Rate Floor: Resi Mtges</b>	Report the lifetime rate floor if one is contained in the credit agreement. The reported floor should reflect the full interest	Leave blank if interest rate is fixed for the life time of the loan.

Field Name – Loan Detail Record	Definition	Comment
	<p>rate (index rate + spread), even if the actual floor only applies to one component.</p> <p>Applies to loans that float for the life of the loan or fixed-to-floating rate loans (commonly known as hybrid ARMs). Not applicable if the interest rate is fixed for the life time of the loan.</p>	<p>Use -99 if interest rate is floating at any time during the life of the loan and there is no floor.</p> <p>Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51).</p>
<b>Prepay Lockout End Date</b>	<p>For a loan with a prepayment option, if there is a lockout period where prepayment is not allowed (aka "lockout period") or yield maintenance/make-whole provisions apply, report the end date of that lockout period.</p> <p>For a loan with a prepayment option that does not have a lockout period, report origination date.</p> <p>For a loan without a prepayment option, report maturity date.</p>	
<b>Draw-down Type</b>	<p>For a loan with a drawdown option at origination, report the type of drawdown facility:</p> <p>No drawdown option</p> <p>Revolving line of credit without contingencies ("unconstrained")</p> <p>Revolving line of credit with contingencies (e.g., tied to construction deliverables, inventory purchases, sales or NOI targets, etc.)</p> <p>Non-revolving line of credit without contingencies ("unconstrained")</p> <p>Non-revolving line of credit with contingencies (e.g., tied to construction deliverables, inventory purchases, sales or NOI targets, etc.)</p> <p>A contingency for a line of credit (LOC) is defined as a restriction that ties the drawdown to a date/event that is expected to occur. Examples include an LOC where the draws follow a pre-determined schedule, a construction LOC where draws are tied to construction progress, or an inventory financing line of credit where all financing must be supported by acquisition of inventory. A contingency is not a condition whereby draws are prohibited (or payback is required) on an LOC if certain events do not occur (e.g.: borrower fails certain accounting criteria).</p>	<p>1 = No drawdown option</p> <p>2 = Revolving line of credit without contingencies</p> <p>3 = Revolving line of credit with contingencies</p> <p>4 = Non-revolving line of credit without contingencies</p> <p>5 = Non-revolving line of credit with contingencies</p> <p>For 1<sup>st</sup> Lien 1-4 Family Residential Mortgages (Asset Code 750), the expectation is that pledged loans will not have a drawdown option.</p>
<b>Draw Period End Date</b>	<p>For a loan with a drawdown option, report the end date of the drawdown period. That is either a) the maturity date for a</p>	<p>Leave blank if no drawdown option.</p>

Field Name – Loan Detail Record	Definition	Comment
	drawdown option that extends until maturity, or b) a date prior to maturity for a line of credit that converts to a term loan before maturing. Not applicable if the loan has no drawdown option.	
<b>Original Interest Rate</b>	For fixed-to-floating rate loans (commonly known as a hybrid ARM), report the interest rate during the initial rate period (before the loan converts from fixed rate to floating rate). Not applicable for loans that are not hybrid ARMs.	Use -99 for loans that are not hybrid ARMs.
<b>Initial Reset Date</b>	For fixed-to-floating rate loans (commonly known as a hybrid ARM), report the date when the last fixed rate coupon is made (i.e., the date when interest begins to accrue on a floating rate basis). Not applicable for loans that are not hybrid ARMs.	Use 99991231 for loans that are not hybrid ARMs.
<b>Residual Value: C&amp;I</b>	Report the most recently available residual value for the collateral underlying the lease agreement. Not applicable if not a lease.	Use -99 if not a lease.
<b>Residual Value: Consumer Leases</b>	Report the most recently available residual value for the collateral underlying the lease agreement.	
<b>Most Recent Leverage</b>	Report the most recently available leverage. The leverage is defined as total liabilities divided by total assets, where the total liabilities and total assets must be simultaneous. In general, total liabilities are the sum of current liabilities plus long- term debt plus other non-current liabilities (including deferred items) of the obligor. Total assets are the sum of the current assets plus net property, plant, and equipment plus other non-current assets (including, but not limited to, intangible assets, deferred items, and investments and advances) of the obligor. Your institution may use internal definitions or existing Y-14 data elements to source total liabilities and total assets. Report leverage at origination for this loan field if that is the most recent value available.	Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51). Do not report leverage calculated using a different formula.
<b>Date of Most Recent Leverage</b>	Report the date that corresponds to the value for Most Recent Leverage.	

Field Name – Loan Detail Record	Definition	Comment
	Report the origination date if leverage at origination is the most recent value available.	
<b>Leverage at Origination</b>	Report the leverage at origination. The leverage is defined as total liabilities divided by total assets, where the total liabilities and total assets must be simultaneous. In general, total liabilities are the sum of current liabilities plus long- term debt plus other non-current liabilities (including deferred items) of the obligor. Total assets are the sum of the current assets plus net property, plant, and equipment plus other non-current assets (including, but not limited to, intangible assets, deferred items, and investments and advances) of the obligor. Your institution may use internal definitions to source total liabilities and total assets.	Must be reported in percentage format (e.g., 2.51 percent should appear as 2.51). Do not report leverage calculated using a different formula.
<b>Collateralized Flag</b>	Indicator of whether the loan is collateralized.	0 = Not collateralized 1 = Collateralized
<b>Collateral Type: CRE</b>	Report the type of property used to secure the loan. If the CRE Loan is secured by multiple property types, indicate the predominant property type. The predominant property should be the one with the highest collateral value as of the last valuation date. If the CRE Loan is secured by multiple property types and no single one predominates, indicate integer code for "Mixed".  Retail Industrial / Warehouse Hotel / Hospitality / Gaming (including Resorts) Multi-family for Rent (including low income housing) Office Agricultural Real Estate Mixed Other	1 = Retail 2 = Industrial / Warehouse 3 = Hotel / Hospitality/Gaming (including Resorts) 4 = Multi-family for Rent (including low income housing) 5 = Office 6 = Agricultural Real Estate 7 = Mixed 8 = Other
<b>Collateral Type: Resi Mtges</b>	Report the property type. For one property with multiple uses, report as Mixed Use. If the Residential Mortgage loan is secured by multiple property types, indicate the predominant property type. The predominant property should be the one with the highest collateral value as of the last valuation date.	1 = Single Family Residential 2 = Condo 3 = Co-Op 4 = 2-4 Units 5 = Townhouse

Field Name – Loan Detail Record	Definition	Comment
		For 1 <sup>st</sup> Lien 1-4 Family Residential Mortgages (Asset Code 750), the expectation is that pledged loans will only be first liens.
<b>APR</b>	The receivable balance-weighted average of purchase APR on unpaid balances of the credit card accounts in the pool as of the pledge submission date.	
<b>Call Report Code</b>	Report the code corresponding to the line number on the call report, Schedule RC-C, or 5300 for Credit Unions; in which the outstanding balance is recorded or, in the case of an unused commitment, the line number in which the loan would be recorded if it were drawn.	Exclude all periods or parentheses when reporting the appropriate code. Example: 1.a.(1) should be reported as 1a1.  For credit cards, if more than one call report code applies, separate call report codes with “/”. Example: 4a/6a.
<b>Industry Code</b>	Report the numeric code that describes the primary business activity of the obligor according to the North American Industry Classification System (NAICS). If the NAICS code is not available, provide either the Standard Industrial Classification (SIC) or Global Industry Classification Standard (GICS). If the obligor is an individual, the industry code should be consistent with the industry in which the commercial purpose of the loan operates. If the business or individual operates in multiple industries, report the industry that best represents the commercial risk of the loan (i.e., the predominant industry).	
<b>Industry Code Type</b>	Select the type of industry code identification scheme used in the field "Industry Code". NAICS SIC GICS	1 = NAICS 2 = SIC 3 = GICS
<b>Collateral Location Zip Code</b>	Report the five digit Zip code for where the collateral is located.	Required for U.S. based collateral only
<b>Collateral Location Country</b>	Report the two-letter ISO country code for where the collateral is located.	Required for foreign based collateral only.
<b>Optional LDEs</b>	Your institution's Federal Reserve District may require additional data elements to be reported. Please enter any such data elements in this field and add additional fields/columns as needed to the right of the required set of data elements.
